

NMNGMC Module Lights

Material required for 1 module:

1. 2 light housings: Hampton Bay # 680-247, a single track light. listed as Halogen Track Light Head. \$9.97 ea + tax. (Two Required)

NOTE: (Old housing no longer available.)

2. n:vision 14 Watt Spiral Daylight, 4 Pack Model 5M814455K \$8.97 + tax, Home Depot SKU 161=167

3. 1/4" Support rod, Round Rod 1/4 X 36, zinc plated. \$3.47 ea. Two required.

4. Shrink tubing, # HST-187B; 3/16" X 3/32" Black. \$1.99 pkg. One pkg required.

5. Lamp cord, #76101; 8' Brn lamp cord set. \$5.99 ea. Two required.

Note: The spec originally called out for a 4 ft rod, we only need a 3 ft rod with the way we attach the light support rod.

The light fixture does not have a switch to turn off the lights. Some lamp cord sets have a switch within the wire bundle, your choice!

If you need more than two lights, I think the 3 track light fixture is more economical to buy, # 463-285 and one single unit to make 4 lights.

Light Housing Modification

1. *"To be a described soon"*
